This week the children have been retelling the story The Gingerbread Man. They have been thinking about the different characters in the story and what happens to them. Can your child tell you about the characters? Who chases the Gingerbread Man? What does the Gingerbread man say as he is running away? What happens at the end of the story?

In Maths this week some children have been working on addition. They have been using objects to help them work out the answer. Can your child work out the sums below? They can use any household objects to help them i.e. forks, socks etc.

\[
\begin{align*}
3 + 3 &= \\
5 + 3 &= \\
10 + 2 &= \\
8 + 4 &= 
\end{align*}
\]

Some children have been working on sharing a given number of objects equally. Can your child work out this problem? There are two people and ten sweets. If we shared them equally how many sweets would each person have?

In Phonics all children have been working hard with their reading and writing. Reading a little bit every night will help your child to build on their Phonics skills. Have a go at the challenge below;

How many words can you make using these letters? You do not have to use all of the letters. Write your answers on the back of this sheet.

\[c \quad a \quad t \quad s \quad b \quad m\]

Thank You

Reception Staff
